Explore simple garment designs to create with your handwoven, dyed, felted, or upcycled fabrics.

Judith will show samples from her book *Weave • Knit • Wear* – pieces made with rectangles and no cut selvages. Shaped pieces like sleeves, collars and gussets are knitted. Anna and Jane will show their designs, also made with rectangles. We will work in teams, taking measurements and brainstorming design ideas based on these concepts.

In the second session, you will bring in pieces to begin assembling. We will work on seams and adding knitting, if desired.

The goal will be for each participant to complete a garment to model at the February 25, 2025 Guild Meeting.
